

INTRALOGISTICS & **WAREHOUSING** EXPO 2024

2 3 4 MAY 2024

Autocluster Exhibition Centre, Pune

The Future of

Warehousing, Material Handling, Storage, Logistics & Supply Chain

India's **No.1** Entrance Automation & Loading Bay Equipment Company

Loading Bays - Dock Levelers + Dock Shelters + Dock Doors

- Dock Levelers are designed as per EN 1398 standard using advanced robotic welding technology, platform and lip in almond anti-slip steel.
- Safety stop in case of accidental departure of the vehicle & side foot protection steel guards.
- Dock Shelters provide an optimum seal between the internal and external environments and assist in reducing the energy consumption.
- Sectional Overhead Doors are ideal for all industrial and logistics needs, ensure robust, well-insulated and space-saving in compliance with safety requirements.
- Sectional Overhead Doors can be designed with a combination of aluminium panels and transparent acrylic, grilled or meshed windows make the environment bright as it allows natural light to pass through the large clear areas.

Dock Levelers | Dock Shelters | High Speed Doors | Rolling Shutters | Sectional Overhead Doors

11-A2,HOSKOTE INDUSTRIAL AREA,CHOKKAHALLI VILLAGE KASABA HOBLI, HOSKOTE TALUK, BANGALORE DISTRICT-562114

Company profile: We are manufacturers and suppliers of Al. Reflective Insulation, which is a unique insulation product , used for Metal Roof, Asbestos Roof Sheet, Under Deck, Ducting, Vertical Wall, Live Stock, Concrete roof, Ceiling, Pipes, Under Floor, Cold Room. This product is widely used in all the developed economies of the globe. It will replace most of its substitutes and conventional insulation within short time in Indian market too. We are the pioneers in introducing the reflective insulation materials in India, since the last 15years.

Products and solutions: Thermal Wrap Insulation material made of polyethylene air bubble film (ABF) laminated with aluminum foil on one or both sides in different thicknesses. Thermal Wrap Insulation works during summer can block 97% of radiation heat coming from sun which can enters into buildings and balance heat will enter by conduction and convection (which is negligible). During winter Thermal Wrap keeps heat escaping from buildings by reflecting 97% of the heat back into the building. In turn requiring less work by your heating systems.

Pepperl+Fuchs Factory Automation Pvt. Ltd. Booth No. A-50

TEL: +91- 0124 389 4000, 9310372608

EMAIL: fa-info@in.pepperl-fuchs.com

WEB: www.pepperl-fuchs.com

Address: 6th Floor, Tower-2, Vatika Business Park,

Sohna Road, Sector-49, Gurgaon,

Gurugram-122002, Haryana, India.

Company's profile: Pepperl+Fuchs is one of the world's leading providers of industrial sensors and explosion protection. Based on an intense dialogue with our customers for more than 70 years we continue to develop new components and solutions, which support their applications the best way possible. For the landmark topic Industry 4.0 (Industrial Internet of Things) we develop innovative technologies that pave the way to the digital networked production and to data transfer across all hierarchy levels – even beyond companies' boundaries.

Industrial sensors: focus on the market

Market-specific solutions dominate an extensive portfolio of industrial sensors that covers all applications the market requires from today's automation technology. From the inductive and capacitive to the photoelectrical and highly precise ultrasonic sensors, identification systems and many more Pepperl+Fuchs offers all current operating principles in a broad variety.

Sensorik4.0® provides sensor technology for Industry 4.0. Our technologies enable sensors without difficulty to communicate horizontally within the production process and to exchange data vertically – even into higher-level information systems such as MES or ERP.

Products and solutions: Identification systems from Pepperl+Fuchs enable more cost-effective information capture in production and logistics, as well as enhanced information quality. You will always be up to date on complete inventories, and will benefit from comprehensive tracking and tracing features. In addition, you can improve controlling material flows. And since you have accurate process data, you can continuously improve processes, setting new standards in terms of delivery and inventory management.

These companies include start-ups and also the companies from the Fortune 500. Additionally we have 2 products that are out in the market and have been performing really well based on the feedback we have received from our customers. Our vision as a company is to be at the forefront of technological innovation empowering businesses of all scales to redefine efficiency, foster growth, and navigate the future with confidence.

Products and solutions: We have 2 products out and live in the market. The first being RealMeds which deals with real-time traceability and prevents counterfeiting of medicines. The second product is WarePro which is a new-age WMS built using technologies namely AI, Blockchain, Digital Twin, IoT and Computer Vision bringing high level of Operational Efficiency, providing real-time traceability of the operations within the warehouse & also the supply chain and environment monitoring which is a must need for cold storages where a continuous check on the temperature is demanded to keep the stock fresh. The purpose of building WarePro is to automate warehouses bringing in a high level of efficiency, accuracy and transparency.

Safe Packaging & Rental Services

Booth No. A-44

TEL: +91- 9824239050

EMAIL: info@safepackrentalservices.com

WEB: www.safepackrentalservices.com

Address: C/o Ashapuri Timber Co Compound, Nr. Gujarat Public School, N.H.8, Chhani, Vadodara 391740 Company profile: "Safe Packaging & Rental Services," established in 2014, rapidly made its mark in the pallet rental industry with a discerning focus on high-quality wooden pallet rentals. Identifying a clear opportunity in the market for a service-oriented pallet rental provider, the company set out to fill this niche by offering tailored packaging and rental solutions that cater to the unique demands of each customer.

The pillars of the company's success have been a resolute adherence to quality, a culture of innovation, and a deep-seated commitment to customer contentment. "Safe Packaging & Rental Services" takes pride in a broad selection of wooden pallets, designed to meet the requirements of various sectors and logistical challenges. The company goes beyond simple rentals, offering a spectrum of services aimed at boosting the operational efficiency and effectiveness of their clients' businesses.

Understanding that every client has distinctive needs and obstacles has been pivotal to the company's strategy. They offer customized, pragmatic, and economical solutions. A team of experts is committed to working in concert with clients to ensure that every service rendered is in strict alignment with their specific needs.

The company employs cutting-edge technology and innovative practices to ensure that their pallets uphold the highest standards of strength and functionality. Their dedication to delivering excellence is reflected in their reliable and timely service, solidifying their status as a dependable ally in their clients' ventures.

Under the visionary leadership of Mr. Robin Patel, the company has made significant strides in the industry. His knowledge and foresight have been crucial to the company's expansion and the cultivation of a culture of excellence that pervades every operational facet. With his guidance, the company has broadened its client base across diverse sectors, fostering enduring relationships founded on trust, superior quality, and unparalleled service.

"Safe Packaging & Rental Services" positions itself not just as a provider but as a partner, committed to the smooth and effective management of your logistical needs via top-tier pallet rental services.

Drawing on over five decades of experience in the wooden packaging domain, "Safe Packaging & Rental Services" has developed an extensive selection of hardwood and softwood rental pallets. These pallets are designed with durability and cost-effectiveness in mind, presenting a solid choice over traditional pinewood pallets. The company's dedication to quality is evident in their innovative approach to pallet design, leveraging modern technology and software to create customizable solutions that fit the exact needs of their clients.

This longstanding heritage in the pallet rental space allows the company to skillfully handle large orders within tight timeframes. Six associated manufacturing units located across India bolster the company's operations, guaranteeing the prompt distribution of top-quality rental pallets nationwide. This network is a testament to their ability to satisfy the varied requirements of clients, regardless of their geographic location.

In summary, "Safe Packaging & Rental Services" is more than a supplier—it is a devoted partner, aimed at improving your logistical processes with superior pallet solutions that draw from a deep well of experience and an innovative mindset, making them the go-to option for businesses in search of dependable, high-grade pallet options.

Products and solutions: We are engaged in offering a wide range of Wooden Pallet. We also offer Wooden Pallet Rental Service.
